DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-18 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest a method and a ROM device having repair function. In particular, a ROM device comprises: a sense amplifier section which senses data stored in a selected memory cell; a repair control section which generates a select signal in response to an input address; and a multiplexing section which selects and, in response to the select signal, outputs one selected from the group consisting of an output of the sense amplifier section and a fixed voltage.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The U.S. patents cited in the PTO-892 teach ROM devices having repair function for replacing defective cells with redundant cells.
